Professional Summary

Full Stack Software Engineer with 2+ years of experience building scalable web applications and real-time systems using React.js, Node.js, NestJS, and PostgreSQL. Experienced in REST APIs, WebSockets, backend architecture, and production-grade systems for international clients.

Experience

Quantum Byte Jan 2026 – Present
Full Stack Engineer *Pakistan*
- Developed scalable full-stack applications using React.js, Node.js, and PostgreSQL.
- Architected high-performance RESTful APIs and optimized database queries using Prisma ORM.
- Implemented real-time communication systems using WebSockets for live data synchronization.

Finit Systems Inc. Jul 2025 – Feb 2026
Full Stack Developer *Remote*
- Built responsive and SEO-optimized client portals for digital marketing services.
- Integrated Google Analytics and Search Console APIs for reporting dashboards.
- Collaborated with international teams using Git, GitHub, and Bitbucket workflows.

WAP eXP Aug 2023 – Dec 2024
Web Developer *Remote*
- Developed full-stack MERN applications for international clients.
- Implemented JWT authentication, third-party API integrations, and responsive UI systems.
- Built scalable frontend interfaces using React.js and Tailwind CSS.

Projects

Prop Capitals – Proprietary Trading Platform | React.js, NestJS, PostgreSQL, WebSockets Live Link
- Built a scalable trading platform with real-time trading data synchronization and live updates.
- Implemented WebSocket-based architecture for low-latency financial data streams.
- Designed modular backend services for scalability and high-load environments.

MT5 Trading SDK – NPM Package | JavaScript, Real-Time Systems NPM Link
- Developed and published an open-source JavaScript SDK replicating MetaTrader 5 chart features.
- Engineered real-time streaming capabilities for financial market data visualization.
- Optimized performance and developer integration workflows.

Platinum Edge Gateway | Node.js, API Gateway, System Design
- Building a high-performance API gateway system with secure API routing and backend optimization.
- Designed scalable architecture patterns for high-load enterprise environments.
- Managed Ubuntu VPS deployments using Termius.

Technical Skills

Languages: JavaScript, TypeScript, SQL
Frontend: React.js, Next.js, React Native, HTML5, CSS3, Redux, Tailwind CSS
Backend: Node.js, Express.js, NestJS, REST APIs, WebSockets
Databases & ORM: PostgreSQL, MongoDB, Prisma ORM
Deployment & DevOps: Ubuntu Server, Termius, VPS Deployment, Server Configuration, Docker, Git, GitHub, Bitbucket, Postman
Concepts: System Design, Microservices, CI/CD, Agile Development, OOP, Event-Driven Architecture

Education

University of Agriculture Faisalabad 2025 – 2029
BS Computer Science *Pakistan*
